Trainees / Mentees

From 2010-2014, I worked clinically as a general Obstetrician/Gynecologist within both the departments of Obstetrics and Gynecology and Family Medicine at University Hospitals Cleveland Medical Center as part of my commitment to the National Health Service Corps. In addition to my role as a mentor and educator to residents and medical students within the department of Obstetrics and Gynecology, I served as the faculty member overseeing all clinical obstetric practice for the Department of Family Medicine, mentored and trained each class of Family Medicine residents (9 per class), and developed and educational curriculum in Obstetrics and Gynecology for family physicians. During these years, I also served as the Associate Residency Program Director in the Department of Obstetrics and Gynecology and developed and administered a Fellowship in Advanced Obstetrics for graduates of Family Medicine residency programs, which provided comprehensive clinical and operative obstetric training to graduates of Family Medicine residency programs who desired to practice full-scope obstetrics (including cesarean delivery).
